

STEVENS SHELF™

Postformed Melamine...

We are excited to show our new Postformed Melamine options for shelving and doors and hope they are appealing to you as well. Availability in widths from 12" to 24" in the most popular colors makes this product a necessity for your client offerings...Why have a sharp-edged flat front when you can offer an appealing soft-rounded edge?!

STEVENS STONE™

Finished Solid Surface Tops...

Wouldn't it be nice to offer to your clients complete and finished Solid Surface Island Tops or Home Office Tops in a short leadtime with some amazing stone colors? You can with the StevensStone line of Solid Surface options! We have selected 12 of the most complimentary stone colors available today...just fill out the simple one-page order form and fax back to Stevens...tops will be shipping in 2-3 weeks (depending on complexity!).

STEVENS WOOD™

Thermofused Melamine with Real Wood Look and Feel...

All of our StevensWood finishes fuse the natural beauty of real wood with the durability of thermofused melamine! By creating a real wood look and feel, your designers or product development team can design a high-end wood product with cost advantages similar to melamine. Consult with one of our sales professionals for a complete review of all the colors in our StevensWood Collection today!

STEVENS WOOD™ – GRN

Thermofused Melamine... As Nature Intended...

Green - Recycled - Natural - A thermofused melamine product like no other! With a non added formaldehyde core AND surface, you feel good about the product you are using.
