

STEVENSWOOD™

All the style, warmth and comfort of natural wood!

Become a Believer.

See the natural beauty.

...a laminate product that fuses the high-end style of real wood with the durability of thermofused melamine.

Feel the amazing texture.

...by creating a real wood feel, your designers, architects or product development team can design and create a high-end product that exudes the sophistication, warmth and comfort of natural wood.

Love what it does for the environment & your budget!

...our core material contains 100% recycled and/or recovered fiber with the option of no added urea formaldehyde in the core or surface.

...and it's affordable - just a fraction of the cost of real wood!

More color and pattern options and economical advantages for:

- Bath
- Kitchen
- Closet Systems
- Hospitality
- Store Fixtures
- Office Furniture

See it.
Feel it.
Love it!
